Re: Attached Materials
Date: 16 October 2000

Attached you will find the following documentation:

- . complete set of materials from Rose McDermott
- . letter to Cardinal Martinez Somalo as written by Rose with information added as indicated in her letter
- . appendices as indicated in her letter
- . diskette with all these files in Word

You need to be careful of the following:

- . last name of Alma - novice from Orange - the list I have from Kay has it spelled "Marinez" - when I was in Hartford, I thought that they said "Martinez"
- . on p. 3 of the letter to Martinez Somalo - I had to use the symbol "#" for number as I could not find in the list of symbols on my machine the one used by Rose. If you have it on your symbols under Insert on the tool bar - use that one as it is correct.
- . when Rose in her memo indicates an appendix, she is using the ones I originally sent her - since she omitted some of what I sent her, that changes the alphabetical sequence - for example, the first appendix she lists is "c" - that now becomes "a" to keep everything in proper order

Phyllis, Rose advises that everything be sent air mail. My advice is that it be sent as an International Overnight Letter. It is expensive but it pays dividends. I had to send some material to Rome from our chapter and sent it by International Overnight Letter (Cost \$30) but we had an answer in two and a half weeks. The added advantage is that this can be tracked and regular air mail cannot. Anyway, for what it is worth, that's my suggestion.

I am in Baden and you can contact me here. I will be here until early on October 31 when I return to Wichita. Please let me know about these materials.
